

## Les ailes de la Francophonie

- Print copies of 2-40 for as many total students as you have. The more feathers you have to work with the better.
- Students color the feather the color(s) of the flag indicated on the page.
- Cut out the feathers.
- Staple them to a bulletin board in the shape of wings, with space in the center between the 2 wings for students to stand. **\*\* trace or draw the wing design on to the bulletin board first so it can act as a guide\*\***.
- Trim feathers as needed to make the overall design look aesthetic.
- Students stand in the center for a picture!
- Share for National French Week, or for La Semaine de la Francophonie.
